We appreciate you thinking of MCU and wanting to create a partnership; however, we have an enormous amount of requests for donations and charitable contributions. We fill as many donations as possible each year and we do not necessarily donate to the same organizations each year so that we can spread the generosity across Johnson and Hood County as much as possible. In addition to donations, we participate in as many activities as we can each year.

We will review each request, and we will notify the contact for the donations that we are able to grant. Please make your request at least **one month** in advance.
